OVERVIEW

As a front-end web developer, I have made meaningful contributions to various projects where I've been able to showcase my coding capabilities. Throughout my internships, I've gained valuable experience building mobile-responsive websites and implementing engaging 3D animations. I enjoy working with modern frontend technologies and take pride in creating interactive user experiences that are both visually appealing and highly responsive across all devices.

EDUCATION

COMSATS University Islamabad

Bachelor's Degree in Computer Science
Sept 2021 – July 2025
CGPA: 3.48

PROJECTS

SpatiumVerse

An interior designing 3D and AR based web platform where users can create 3D spaces by interacting with design models and also save, share, collaborate, and discuss these designs with other users. The project has microservice architecture.

Tools utilized:

- Next JS, React JS, Three JS, AR JS, TailwindCSS
- MongoDB, Supabase, Express

Deem Your Mood

An emotion detection app that detects and visualizes human emotions through AI-powered analysis.

Tools utilized:

- Next JS
- Tailwind CSS
- Lucide React
- Figma

Portfolio Website

A portfolio website made by utilizing Next JS and Framer Motion to add animations for a visual appeal.

- Next JS
- Framer Motion
- Tailwind CSS

Pinterest Clone

A clone version of Pinterest's website. The project is frontend focused duplicating the UI of the website.

Tools utilized:

- Next JS
- Tailwind CSS

PROFESSIONAL EXPERIENCE

Freelance Projects

May 2025 – Present

- Worked with clients to provide websites according to their needs
- Developed responsive, mobile-first websites using React/Next.js
- Implemented interactive UI features such as animations using Framer Motion and GSAP

Frontend Developer Intern

Mudirr | October 16, 2024 – February 1, 2025

- Frontend Development
- Component Design Integration
- Cross-Browser Compatibility
- Version Control
- Code Quality
- Collaboration with Designers and Backend Developers
- Performance Optimization

Software Intern

Teresol Pvt Ltd | June 24, 2024 – August 5, 2024

- Grasped the concept of Vue JS by implementing it in a self-initiated project.
- Implemented the concept of XState FSM for managing the state in the project.
- Incorporated Express Server and MongoDB as backend database.

SKILLS

- Frontend:** HTML, CSS, JavaScript, React JS, Next JS, Vue JS, Bootstrap, TailwindCSS, Framer Motion, Three JS, GSAP
- Mobile:** Flutter, React Native
- Backend:** Node.js, Express, REST APIs
- Database:** MongoDB, Mongoose, Firebase
- Tools:** Git, GitHub, Postman, VSCode, Figma
